**Colloquium and
Celebration of
Life and Scholarship of**

Dr. Sue Ritter

SAVE THE DATE & RSVP

May 13-14, 2022

Dr. Sue Ritter was a Regents Professor and internationally distinguished researcher who studied how the brain controls blood glucose levels and appetite. She passed away on March 14, 2021. During her long and distinguished career, Dr. Ritter made many notable scientific contributions and taught many students at the undergraduate, graduate, and professional levels.

On May 13-14, friends and colleagues from WSU and around the world will gather to honor and celebrate Sue.

Book your hotel at go.vetmed.wsu.edu/HotelSueRitter by Tuesday, April 12, 2022 to get the group rate at Residence Inn Pullman • 1255 NE North Fairway Road

RSVP to go.vetmed.wsu.edu/RSVPSueRitter

Even if you can't attend the colloquium, you can still further Dr. Sue Ritter's legacy by giving to the Dr. Sue Ritter Memorial Research Scholarship at go.vetmed.wsu.edu/SueRitterScholarship. The fund is used to support a senior undergraduate student who is distinguishing themselves in neuroscience research.
